Date	Lecturer	Title of lecture
2017		
17.10.2017	Prof. Dr. Michael Meyer-Hermann (HZI)	Optimization of antibodies in germinal centre reactions in silico and in vivo
14.11.2017	Prof. Dr. Berend Isermann (IKCP)	Insights into sterile inflammation in diabetic nephropathy reveal new therapeutic opportunities
28.11.2017	PD Dr. Cora Wex (KCHI)	Mechanical properties of liver tissue in diagnostics of liver diseases
12.12.2017	Prof. Dr. Andrea Kröger (IMMB)	Innate immune response against viral infections in the brain
2018		
09.01.2018	Prof. Dr. Dunja Bruder (IMMB/HZI)	Mucosal surfaces: more than a mechanical barrier!
23.01.2018	Prof. Dr. Johannes Haybäck (IPA)	Cancer modelling
06.02.2018	Prof. Dr. Thomas Fischer (KHAE)	Inflammation and integrin activation in hematologic cancer
20.02.2018	Prof. Dr. Christoph Arens (KHNO)	Endoscopic Imaging in precancerous and cancerous lesions of the larynx
06.03.2018	Prof. Dr. Monika Riek-Burchardt (IMKI)	Neuroinflammation after stroke
03.04.2018	Prof. Dr. Luca Simeoni (IMKI)	Regulation of T-cell activation
08.05.2018	Dr. Stefanie Kliche (IMKI)	Integrin signaling
05.06.2018	Prof. Dr. Daniela Dieterich (IPT)	Modulation of Protein Translation: a Key to Disease Treatment?
10.07.2018	Prof. Dr. Michael Naumann (IEIM)	NF- κ B
